Emergency First Aid Awareness

The course is designed to ensure that social care staffs are able to deal with emergencies until such time that the emergency service has arrived. It is also an ideal course to help keep first aiders updated and also provides an opportunity for them to ask questions to their instructor and peers.

The syllabus includes: -

- Managing Incidents
- Basic Life Support
- Control of Bleeding
- Choking and minor burns
- Examination of a Casualty
- Unconsciousness
- CBR
- Head Injury
- Strain and sprains
- Treating shock

The course is presented by means of tutorials, practical exercises and group discussions.

Assessment:

The basic emergency first aid awareness course is delivered in one day for 6 hours. The tutor throughout the course will continually assess candidates. Upon Successful completion of the course candidates will be awarded a HSC approved certificate for Emergency First Aid Awareness.

Important information

The training venue should be quiet and undisturbed. Staff should not be expected to be on duty on the day of training as each candidate attending should remain for the entire length of the session.

Cost:

Our first aid training course is competitively priced at £50 per candidate or £350 for group booking of maximum 12 candidates in a group.
